Bilateral Meetings

- Tuesday 09:30 - 16:00

Description

Flora is located in Ivanjica since 1993. It deals with the production and processing of fruits. It is surrounded by beautiful mountain nature, which in itself is sufficient inspiration to treat fruits in a different way. We produce high quality jams without artificial colors and aromas, which are prepared by special methods in the most modern equipment. Of these natural products, we have made a city face with three brands Mingle, Qoyna and Fruit & Flame. Mingle with his seven mixed flavors has ended his story in specialized shops and delicatessen shops in Serbia, Russia and America, with raspberries, strawberries / balsamico, cherry / rum, plum / cocoa, apricot / ginger / mint, red and black mix. Qoyna has six pure flavors of apricot, raspberries, cherries ... and is the most commonly found and sold in Russia. Fruit & Flame with a taste of plum / orange / cocoa, raspberry / lemon, apricot / ginger and special Forest mix found a haven in the US market. In addition to high quality production we also have capacity of 10.000.000 jars per year.

Flora se nalazi u Ivanjici od 1993. godine. Bavi se proizvodnjom i preradom voća. Okružena je divnom planinskom prirodom koja je sama po sebi dovoljna inspiracija da se voćem bavimo na jedan drugačiji način. Proizvodimo visokokvalitetne džemove bez veštackih boja i aroma, koji se pripremaju specijalnim metodama u najsavremenijoj opremi. Od ovih prirodnih proizvoda napravili smo gradske face sa tri brenda Mingle, Qoyna i Fruit & Flame. Mingle sa svojih sedam kombinovanih ukusa je zavrteo svoju priču u specijalizovanim radnjama i prodavnicama delikatesa u Srbiji, Rusiji i Americi, na čijim policama se nalaze malina, jagoda/balzamiko, višnja/rum, šljiva/kakao, kajsija/đumbir/menta, crveni i crni mix. Qoyna ima šest čistih ukusa kajsije, maline, višnje... i najviše se nalazi i prodaje u Rusiji. Fruit & Flame sa ukusima šljiva/pomorandža/kakao, malina/limun, kajsija/đumbir i specijalni Šumski miksi je našao utočište na tržištu SAD.

Pored visoko kvalitetne proizvodnje posedujemo i kapacitet od 10.000.000 tegli godišnje.
